## COMMUNITY NOTICE

Date: 12 February 2010

Ref no: 0606r2

### TOOMBUL/CLAYFIELD

# Sandgate Rd services night work - extended

From Monday 15 February 2010, water line installation work will continue along the western side of Sandgate Road, near Ross Park (see image below). This work will occur over two weeks.

This work will involve the excavation and connection of a new water line, as part of ongoing services relocation work associated with the Airport Link project.

The work must be undertaken at night to minimise traffic disruption on Sandgate Road.

Note: Additional work will be required to upgrade and re-route other utilities to ensure services are maintained to your property during construction. When this is required, you will be notified in advance.

#### What to expect:

- Excavation and connection of new water line
- Temporary lighting and use of generators
- Construction vehicle movements
- Construction signage
- Work on footpath and roads
- Reinstatement of footpath and roads (including use of vibration compactor)
- Construction noise including machinery, excavators, concrete cutting and reversing beepers
- Lane closures and pedestrian diversions under traffic control.

We do not expect any disruption to your services. However, if you have any special circumstances requiring continuity of services, please contact the 24 hour Community Hotline on 1800 721 783.

#### Want more information?

If you have any concerns about this work please contact the Toombul Community Relations Team (Ruth & Rebecca) on **1800 721 783**.
