## COMMUNITY NOTICE

Date:  
Ref No:

17 February 2010  
0660R3

### **KEDRON** **UPDATED - Services Relocation Works**

**Further to the notification distributed 21 January 2010, service relocations works are ongoing in Kedron North to enable construction of the Airport Link and Northern Busway projects.**

This work will be undertaken by the service providers in conjunction with the Airport Link project. Disruption to services is not expected, however advance notice will be given by the service provider if required.

#### **Gas**

A gas main will be installed along the northern side of Homebush Road from Gympie Road to Clarence Road, and along Clarence Road to Stafford Road. Work will generally take place during the construction hours of 6.30am to 6.30pm, Monday to Saturday from mid to late March 2010.

#### **Electrical**

Night works are ongoing till late February 2010 to install electrical cables across Stafford Road, from Clarence Road to Rose Lane, and across Gympie Road from Suez Street to the Kedron Brook work-site.

#### **Water**

Night works will continue until late February 2010 to install a water main across Stafford Road, from Clarence Road to Rose Lane, and across Gympie Road from Cremorne Road to Ramsay, Sadlier and Emerald Streets.

Excavation of a 2.5 metre trench will be undertaken during the day on Rose Lane between 6:30am to 6:30pm Monday to Saturday. Rose Lane will be closed for approximately one week to install a water pit value in the middle of the lane.

#### **Telecommunication**

Installation of the telecommunication lines is underway along Stafford Road from Gympie Road to Alva Terrace and Turner Road and at the intersection of Gympie Road, Sadlier Street and Cremorne Road. The majority of this work will take place along the footpath alignment, on both sides of Stafford Road. Work continues from 9am to 4pm and from 8pm to 5am, Monday to Saturday. It is anticipated that this work will be completed by May, weather permitting.

#### **Driveway Crossings**

When works take place on or near your driveway, the service provider will provide further notice prior to work commencing to allow you to relocate your vehicle to the kerbside. If you have any medical conditions or concerns, please feel free to contact us to discuss options.

Driveway crossings are anticipated to take approximately one day each to complete and will be backfilled to ensure access is maintained prior to reinstatement. The service provider will reinstate

driveways within approximately two weeks of trenching through the area. If you have any special requirements or concerns, please contact us to discuss.

### **Activities will include**

- Trenching and horizontal drilling of footpaths and roads
- Rock-breaking and jack-hammering
- Saw-cutting
- Vacuum excavation/potholing services
- Relocation of services
- Removal of excavated material
- Operation of a bobcat and excavator
- Day and night removal and reloading of spoil from site

### **What to expect**

- Lane closures, when required
- Footpath detours, when required
- Construction vehicle movements
- Construction noise, including rock-breaking and jack-hammering
- Lighting from temporary towers, including the use of generators

### **Want more information?**

If you have any questions or concerns about this work, please contact the Kedron Community Relations Team on 1800 721 783.

We thank you for your patience during the construction of this important infrastructure.
