## COMMUNITY NOTICE

Date of issue 15 March 2010  
Ref 0732

Toombul/Clayfield –

# Widdop Street Bridge– Night Work

From Wednesday 17 March 2010, the installation of parapets (edge barriers) will commence alongside East-West Arterial Road, over Widdop Street, as part of road widening work. Work will be undertaken between 8:00pm and 5am for approximately one week.

The work will involve the installation of 11 precast concrete parapets on the deck units. A crane will be used to lift and position each parapet. This work necessitates the temporary closure of Widdop Street and the East-West Arterial Road off-ramp at Widdop Street, and therefore must be undertaken at night in order to minimise disruption to traffic. See below for alternate route information.

The work will enable East-West Arterial Road to be widened on the northern side, allowing additional lanes to be created for access in and out of the Airport Link tunnel network upon its completion in mid 2012.

Line-marking will also be undertaken at the project site entrances on Widdop Street during this work.

Future finishing activities on the bridge will include concreting work to connect the parapets to the deck slab.

### Activities will include:

- Delivery of concrete parapets
- Lifting parapets into place
- Operation of cranes and construction vehicles
- Line-marking on Widdop Street
- Temporary lighting.

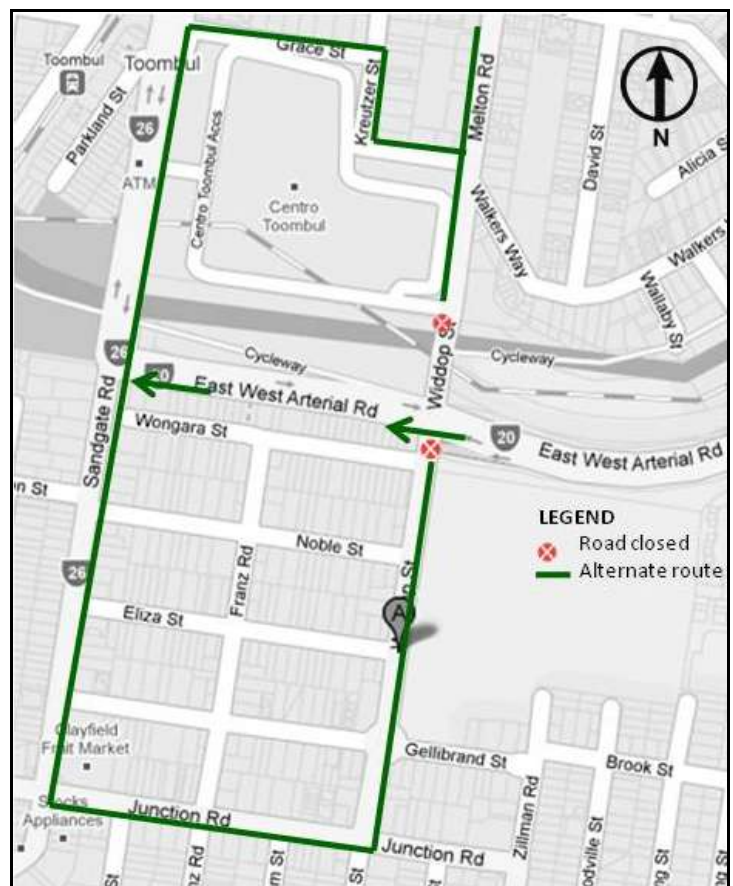

### What to expect:

- Night work
- Vehicle movements
- Construction noise from crane and vehicle movements, reversing alarms and generators
- Single lane closure of East-West Arterial Road eastbound
- Temporary closure of Widdop Street – see alternate route pictured.

### CLOSURE OF WIDDOP STREET AND ALTERNATE ROUTE

During the closure of Widdop Street motorists and pedestrians will detour to Sandgate Road to access Widdop Street via Grace Street, Kreutzer Street and Masfield Street.

Traffic signage and management will be in place to direct motorists and pedestrians. Access to Centro Toombul from Widdop Street will be maintained.
