

TRAFFIC UPDATE

Construction of the Airport Link and Northern Busway (Windsor to Kedron) is underway to connect Brisbane's northern suburbs.

From mid June 2009, motorists and residents can anticipate changes to Gympie Rd, Kedron. Changes will include:

- > Minor realignment of **Gympie Rd** north and south bound traffic lanes (median removal between Leckie Rd and Somerset Rd, Kedron).
- > Permanent closure and removal of **Gympie Service Rd**. Access to Leckie Rd will be via Sadlier St.

Night works including lane closures will be required on Gympie Rd, Kedron from early June to implement these changes.

Traffic signage and management will direct motorists and pedestrians accordingly.

These changes may be postponed due to unforeseen circumstances.

Please drive safely during these important works.
