8 March 2010

### Results of Public Auction of Defaulted BrisConnections Stapled Units

BrisConnections Management Company Limited (**BMCL**) as responsible entity of BrisConnections Investment Trust and BrisConnections Holding Trust (collectively **BrisConnections**) advises a public auction of the defaulted BrisConnections Unit Trusts' stapled securities was held at 10.00am today at Link Market Services in Brisbane.

The auction was for approximately 1.286 million securities on which the third and final instalment of \$1.00 has not been paid. The final instalment was payable on 29 January 2010. In accordance with the requirements of the constitutions of the BrisConnections Unit Trusts, the reserve price for the auction was \$1.00 per stapled security.

BMCL advises no bids were received for the defaulted units at the public auction.

#### About BrisConnections

An investment in BrisConnections Unit Trusts comprises a stapled security made up of one unit in BrisConnections Investment Trust and one unit in BrisConnections Holding Trust. Stapled securities in BrisConnections are listed on the Australian Stock Exchange under the code "BCS".

BrisConnections has been awarded a 45 year concession to design, construct, operate, maintain and finance the Airport Link tollroad in Brisbane. Airport Link is a 6.7 kilometre multi-lane electronic free-flow tollroad with dual 5.7 kilometre tunnels. Upon completion, Airport Link will operate as a multi-destinational road connecting Brisbane's northern suburbs with Brisbane's CBD and Brisbane Airport, the North-South Bypass Tunnel and the Inner City Bypass. It will also serve as a key distribution road, connecting some of Brisbane's major destinations such as Brisbane Airport, the CBD, Royal Brisbane Hospital, Australia TradeCoast and Chermside Shopping Centre.

Airport Link is being constructed using a world class, innovative design solution, with connections avoiding intersection delays and streamlining traffic flows. Lane configuration will provide for separate traffic movements, with early decision points, to minimise traffic weaving and merging.

Airport Link is being built around an electronic free-flow tolling design. Electronic free-flow tolling is mandatory across all Queensland tollroads and Airport Link tags will be fully interoperable with other Queensland and Australian tollroads.

BrisConnections is also designing and constructing a portion of the Northern Busway between Windsor and Kedron and an upgrade of the East-West Arterial / Airport Drive / Gateway Motorway interchange at Brisbane Airport, both of which are funded by the Queensland Government. BrisConnections will not receive any revenue from these projects and they will both be handed over to the Queensland Government upon commissioning.
